

MEMORANDUM

To: Streetlighting Tariff E-mail Service List

From: Susan M. Hudson, Clerk of the Board

Re: Deadline for Comments on Electric Utilities' Filings

Date: June 30, 2009

On April 15, 2009, the Public Service Board ("Board") issued a memorandum requesting that each electric distribution utility review its streetlighting tariff and file certain information with the Board. As noted in that memorandum, the reason for the review is to ensure that there are no regulatory barriers to local governments using efficient street lights (funded with federal stimulus funds or any other means) should they choose to do so.

All electric distribution utilities have responded to the Board's request. The responses are posted on the Board's website at: www.state.vt.us/psb/document/StreetlightingTariffs/main.htm Also posted to this website is the presentation from the May 26, 2009, workshop conducted by Efficiency Vermont on light emitting diodes ("LED") streetlighting.

The Board would like to receive any comments on the utilities' filings on or before July 24, 2009. Comments should be circulated electronically to the Streetlighting Tariff E-mail Service List, and one paper copy should be filed with the Board.
